

FOR IMMEDIATE RELEASE

**FEDERAL COMPUTER WEEK ANNOUNCES
2009 FEDERAL 100 AWARD WINNERS**

(FALLS CHURCH, VA., February 20, 2009)—*Federal Computer Week* has announced the winners of its 20th annual Federal 100 Awards. The 2009 awards are presented to public and private sector information technology professionals who made outstanding contributions to the government IT community in 2008.

"Over the last two decades, the Federal government and the world it serves have changed, but one thing remains consistent—people—those committed individuals who make the difference," said 1105 Government Information Group President, Anne Armstrong.

"We celebrate the 20th Anniversary of the Federal 100 Awards and applaud each winner for his or her outstanding achievements. This group well represents the long history of Fed 100 service," she said.

"These are challenging times and it takes special leadership qualities to successfully manage change," said *Federal Computer Week's* Editor in Chief, David Rapp. "We are honored to recognize 2009 award winners as they become part of a tradition of excellence and service."

Federal Computer Week's March 23 issue is dedicated to the 2009 Federal 100 Awards. This year's anniversary issue will spotlight top leadership lessons from award winners, providing insight into the secrets of success in the government information technology community.

The award winners will also be honored at the Federal 100 Awards Gala on March 25, 2009 at the Ritz Carlton in McLean, VA.

At the gala, *Federal Computer Week* will recognize one outstanding industry and government individual for its 2009 Eagle Awards. In addition, there will be a special President's Award.

For more information about *Federal Computer Week's* 2009 Federal 100 award winners, visit http://events.fcw.com/events/2009/Fed100/2009_Fed_100_winners_list.pdf
